Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The *Agrobacterium* strains were grown in the YEA medium for 24 h at 28°C. The cell concentration of the strains was adjusted to 1.0 × 10⁸ cells/ml. The cell suspension was mixed with the plant tissue and the transformation efficiency was determined. The results were expressed as the mean ± SD of three independent experiments. The asterisks indicate the significant difference between the strains at the same concentration of the cell suspension.

WHAT YOU CAN DO ABOUT PIMPLES

Acne, Blackheads, and other externally caused Skin Blemishes

WHEN you see a skin blemish, you know it's there. But you may not know what it is, or how to get rid of it. That's why you need to know the difference between the two types of skin blemishes: internally caused and externally caused.

TO know the difference, you need to know the difference between the two types of skin blemishes: internally caused and externally caused. Internally caused skin blemishes are caused by internal factors, such as hormones, diet, and stress. Externally caused skin blemishes are caused by external factors, such as dirt, oil, and bacteria.

IF you have internally caused skin blemishes, you need to see a doctor. If you have externally caused skin blemishes, you need to see a dermatologist.

IF you have externally caused skin blemishes, you need to see a dermatologist. A dermatologist is a doctor who specializes in skin diseases. They can help you identify the cause of your skin blemishes and recommend the best treatment for you. They can also help you prevent future skin blemishes.

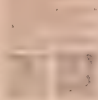

DO your skin blemishes look like pimples or blackheads? If so, you have externally caused skin blemishes. If they look like small, red, inflamed bumps, you have internally caused skin blemishes.

IF you have externally caused skin blemishes, you need to see a dermatologist. They can help you identify the cause of your skin blemishes and recommend the best treatment for you. They can also help you prevent future skin blemishes.

IF you have internally caused skin blemishes, you need to see a doctor. They can help you identify the cause of your skin blemishes and recommend the best treatment for you. They can also help you prevent future skin blemishes.

BLACKHEADS "PET HATE"

Say Men, Girls in Choosing Date

When a "black mark" is the blackhead . . . according to men and girls popular enough to be chosen about town!

"That's the difference!" "Blackhead's date huh?" And that's not all that's said of those who are careless about blackheads. For blackheads ARE ugly! Blackheads ARE gross! And they DON'T look good in closeups!

So can you blame the fellow who says, "Here, I want lots of girls who look cute in close photos. But if, on that same photo, I see dingy blackheads, it's good night!"

Or can you blame the girl who confesses, "I hate to go out with a fellow who has blackheads. It's so embarrassing about that you've seen half a million guys in school camps, huh?"

But you—can YOU, are you? Well, you're younger with, and to say, good company. There are lots of other who sensitive fellows and girls who could take account they like it. They'd only realize how offensive blackheads are . . . and how easily and quickly they could get rid of them . . . if they knew so!

"He-Man" Often Guilty of Blackhead Crime

Take your "he-man" image at work, school, sports or all kinds . . . why should that give you a reason for not going to get anywhere? And won't the girls be amazed by you?

There they wait! But not more than 30 seconds! You'll be back! You won't show up at your company left back when you're not in the ring. The "he-man" who's also careless, will get the biggest blackhead of all.

Even Cute Girls Become Careless

Face, too easy, for a girl to think that it also has the same as blackheads and two-thirds of the world's beauty cream blackheads. A little skin cream every day, and you'll be a real beauty queen. But blackheads are the enemy of beauty. They make you look like a "he-man" who's also careless. And even good-looking "he-man" at a date! He's the blackhead, not though you may be!

TAKE THESE TIPS TO BANISH BLACKHEADS

Keep skin clean by washing thoroughly and night with warm, glycerol soap. Use good soap and plenty of it. And finally with hot water.

Wash every blackhead as soon as you see it—with a SAFE extractor. Don't use finger nails. Don't squeeze. These things cause infection, increased freckles, increased pimples.

Just be clean. Be smart! And be right! That's why Don't Don't!

FELLOWS! GIRLS!
Keep Skin Clear and Clean!

UGLY BLACKHEADS
OUT in Seconds with
VACUTEX

NEW! SCIENTIFIC VACUUM ACTION!

Amazing new VACUTEX is science . . . not just! It's science you are old of those ugly blackheads that clog the pores . . . make your skin look grimy and dingy . . . give others such a wrong impression of you. VACUTEX creates a gentle vacuum pressure around the blackhead and it's pulled out—golden!—without injury to tender skin tissues. Keep skin always clear when you're interested in you. With-out painful squeezing! Without dangerous infection. From pores deeper! Just give VACUTEX over blackhead and skin built extractor. Blackhead's not thought!
